**Client List, continued:**

Groundbreaking, award winning, artist Shana Kroiz creates one of a kind wearable jewelry that celebrates ancient forms and the sensuous nature of human consciousness. The pieces are universal in their appeal and personal in their effect. When worn, the jewelry interacts as a sculpture, making the body a pedestal. The pieces, made with artistic integrity and fine craftsmanship, utilize the electroform method, thereby being frugal with materials like gold and rose gold, and creating very little waste.
