Waxelene creates the same waterproof barrier that doctors recommend petroleum jelly for, but does not contain any petroleum products or hydrogenated oils. Instead Waxelene is aerated with so it won't clog pores. Waxelene works better because it has natural oils, like vitamin E and organic rosemary, to soak in and nurture skin cells.

Destined to become a favorite of crew and make-up artists alike, product comes in tubes or tubs. Countertop POP available.

Web: <http://www.waxelene.com>

Available nationwide US, Canada and the UK.

Siduri Wine is named for the Babylonian Goddess of wine. Adam and Dianna Lee, two Texas transplants who moved to Sonoma to pursue their dream of producing Pinot Noir, founded Siduri in 1994 with limited start up funds and now, 20 years later, they produce 15,000 cases of Pinot Noir from cool climate locations in the Willamette Valley and throughout coastal California. Selecting great vineyard locations, spending a great deal of time in these vineyards, working closely with superb growers, and minimal intervention in the winemaking process all combine to allow Siduri to bottle distinctive wines reflecting the terroir of each site. Their gluten free wines are served in The White House and in first class on airlines such as British Airways.
